

# PRODUCT OVERVIEW

Displays, Panel Computers and Computers 2011/2012

# INTRODUCTION

Hatteland Display is the leading technology provider of maritime display and computer products. We deliver high quality, unique and customized solutions to the international maritime market. The company represents innovation and quality to system integrators, ship yards and boat builders worldwide. Effective quality assurance and investment in sophisticated in-house manufacturing methods and facilities enable us to deliver type approved and Mil tested products.

Hatteland Display has successfully delivered nearly 150,000 products to the maritime industry since 1989. Our customer oriented approach, technical knowledge and dedication to R&D, make us a trusted and preferred supplier of approved solutions, which are backed up by a strong service network.

As the market leader in the commercial marine segment, Hatteland Display is setting the standard in the industry. As technology evolves, we take pride in providing long term support for our products, while at the same time developing new cutting edge solutions for the future. Two of our customers had this to say:

*"Dealing with ever-changing technology is always a challenge; but when you have a trusted partner with a knowledgeable and responsible team like Hatteland Display, you don't need to worry about getting into trouble"*

*"Hatteland Display provides high quality and innovative products supported by a very capable organization".*

We take pride in being flexible and always putting our customers first. Our dedication to our customers has been recognized by the market. Another one of our customers commented on their experience:

*"You can get in touch with Hatteland Display's sales managers anytime, anywhere. Whether on the road, at the office, or in an airport, your call is answered, your SMS is taken, your email is replied, and your concern is attended".*

Hatteland Display's products and organization can be described through our core values: **QUALITY - KNOWLEDGE - VALUE**. We live in these values every day and aim to be a provider of Trusted Solutions to the marine market well into the future.

We hope you find the products and solutions that are illustrated in this catalogue of interest and suited for your needs. We are ready to support you if you have any questions.

Kind regards, The Hatteland Display Team

## HATTELAND DISPLAY ECDIS CALIBRATION

Color calibration of the display is a very important aspect of ECDIS. ECDIS represents one of the most rigorous applications in display technology for our industry.

The consequence of making an error in recognition on the display is potentially very costly, therefore it is important that ECDIS monitors match the colour characteristics specified in the relevant standards. Hatteland Display provides both computers and displays to facilitate an overall ECDIS approved installation.

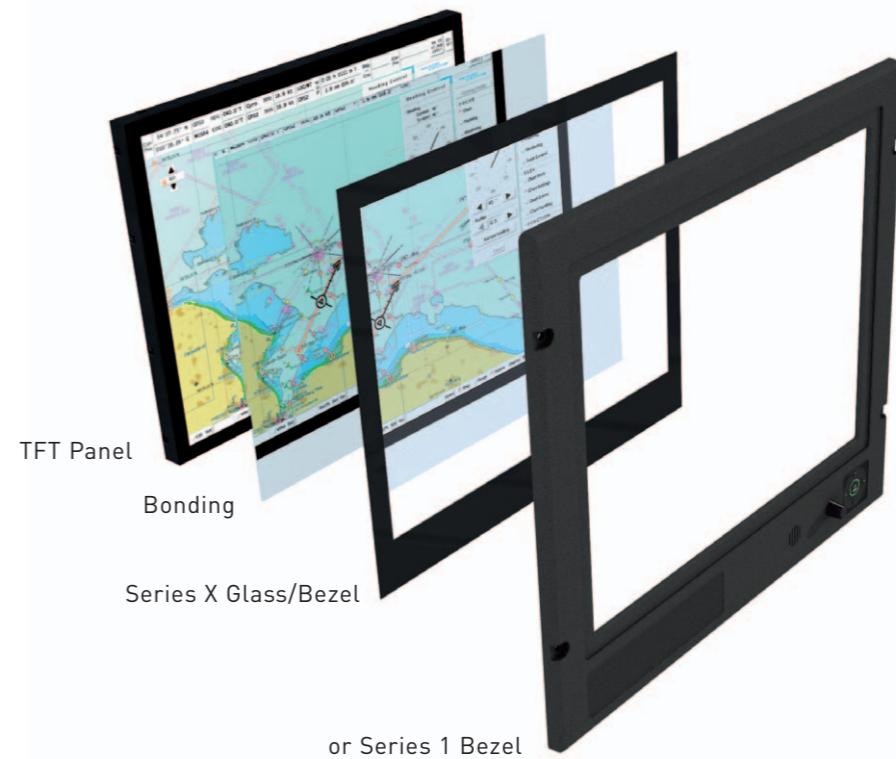

## WHY CHOOSE COLOR CALIBRATION BY HATTELAND DISPLAY?

- With our extensive technical knowledge and experience, we can deliver the best quality type-approved ECDIS displays fulfilling IMO requirements;
- All configurations meet the requirements set in IEC 62288, IEC 62388, IEC 61174 and IEC 60945.
- Hatteland Display ECDIS calibration overcomes all problems associated with different display properties, to ensure correct matching between the standards and the actual products.
- Calibration service is supplied with detailed implementation instructions and extensive support.
- Hatteland Display calibration is the most flexible system, and that can even be used with several types of graphic adapters at a time.

## ENHANCED SUNLIGHT READABILITY THROUGH IN-HOUSE OPTICAL BONDING

Optical bonding greatly enhance the viewing performance, reliability and lifespan of marine displays. It is a process whereby the air gap between the front glass panel and LCD module is filled with a special proprietary compound to negate all of the problems related with marine use such as condensation, sunlight reflection, dust and overheating.

Hatteland Display is dedicated to the art of LCD optical bonding. It is the only such in-house facility of its kind at a marine display manufacturer, and it allows us to provide proprietary added value whilst ensuring the quality and integrity of our display products and technology.

## INNOVATIVE HMI

Within a system, the display provides the primary Human Machine Interface (HMI). Innovative HMI solutions open up new possibilities for the system integrator. Our products can be supplied with touch screens as an option. There are many touch screen technologies available, and we have implemented several of them in our solutions.

### Main usability, performance and integration characteristics are:

Technology	Optical Performance	Stable Calibration	Gloves	Water	Durability	Price	Multitouch	Frameless Design
Analog Resistive	--	+	++	++	-	++	-	-
Surface Capacitive	++	-	--	-	+	-	-	-
Projected Capacitive	++	++	+	+	++	-	++	++

Series 1 can be offered with either resistive or surface capacitive touch screen in most cases, Series X is designed with projected capacitive providing multitouch support.

### MULTITOUCH

Multitouch is defined as the ability to recognize two or more simultaneous touch points. Using projected capacitive technology lets us create a more intuitive form of human-device interaction. Touch-interface gestures, supported by projected capacitive sensors, can simplify the interface and provide an intuitive user experience that goes beyond the typical "button replacement" found in most simple touch interfaces.

Moving the active sensor area on the backside of the protection glass makes the system very durable and not sensitive to surface damages like dirt, scratches etc.

### HATTELAND® Glass Display Control™ (GDC):

A well implemented touch interface can be much simpler to use than a conventional mechanical button-based interface because it can show the user only those controls that are relevant to a particular operation, while all the controls in a conventional interface are always present. Our new display control solution, which we refer to as Glass Display Control, or GDC, is based on projected switches, and have these benefits, and more;

- **Solid state** - reliable.
- **Behind the glass sensors** - don't wear out.
- **No moving parts** - nothing to break, everlasting.

## GUARANTEED RELIABILITY THROUGH TESTING & TYPE APPROVALS

All Hatteland Display products are normally tested and type approved to the required standards by the major classification societies, ensuring our displays, computers and panel computers are fit for the harsh environments encountered at sea.

We also provide dedicated ECDIS calibration which enables us to deliver type approved ECDIS displays straight from the factory to you. Products are normally type approved or in application for Type Approval by the following major classification societies:

### Standard:

<b>ABS</b>	American Bureau of Shipping
<b>BV</b>	Bureau Veritas
<b>ClassNK</b>	Nippon Kaiji Kyokai
<b>DNV</b>	Det Norske Veritas
<b>GL</b>	Germanischer Lloyd
<b>LRS</b>	Lloyd's Register of Shipping

### Optional:

<b>CCS</b>	China Classification Society
<b>KR</b>	Korean Shipping
<b>RS</b>	Russian Maritime Register of Shipping

To ensure the above mentioned type approvals, the products are tested by independent institutions according to the following standards, **where applicable**:

**EN61174** - (IEC1174) Bundesamt für Seeschiffahrt und Hydrographie (BSH)

**EN60529** - IP protection classes.

**EN61162** - (IEC1174) Maritime navigation and radio communication equipment and systems.

**EN60945 4th**

**IACS E10**

For MIL Qualified products:

- MIL-STD-461E**
- MIL-STD-810F**
- MIL-STD-167-1**
- MIL-S-901D, Grade A, Class 1**
- Extended IEC 60945**
- TEMPEST SDIP-27**

# TECHNICAL DEVELOPMENT

Hatteland Display works closely with systems integrators to ensure our products meet the most demanding requirements for maritime and naval applications. In addition to providing high quality standard technical solutions our company continues to set new standards through the introduction of new technologies and capabilities.

## Optical Bonding

Developed in-house, our unique, proprietary bonding technology prevents fogging and produces the best optical quality. Read more on page 5.

## 3-D Modeling and Simulation

Our engineers use state-of-the-art design tools to minimize design cycle times and integration risks.

## Video System Design and Integration

Our engineering staff is experienced in electronic design of critical analog and digital video circuitry.

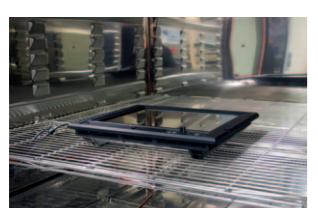

## ECDIS Solutions

Hatteland Display sets the standard for type-approved ECDIS solutions, including automated generation of color calibration tables. We are also the premier supplier of MIL-S-901D qualified ECDIS certified displays. Read more on page 4

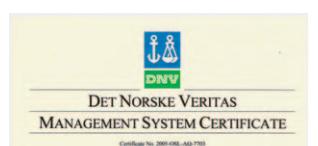

## Environmental Qualification Testing and Type Approval

Hatteland Display's knowledge of international shipbuilding standards and military specifications, coupled with our experience in qualification and certification of products to these standards is unsurpassed.

## Test Facilities

Hatteland Displays test laboratory performs in-house IEC60945 (partial) testing and Highly Accelerated Life Testing (HALT) to constantly improve the product quality. Some of the selected test equipment: Climatic Chamber, Vibrator, Heat Chamber and Thermo Graphic Camera.

## ISO-9001:2008 Approved Processes

Hatteland Display's quality system covers all functional areas and facilities to ensure the quality of our work products.

## WORLDWIDE PRESENCE

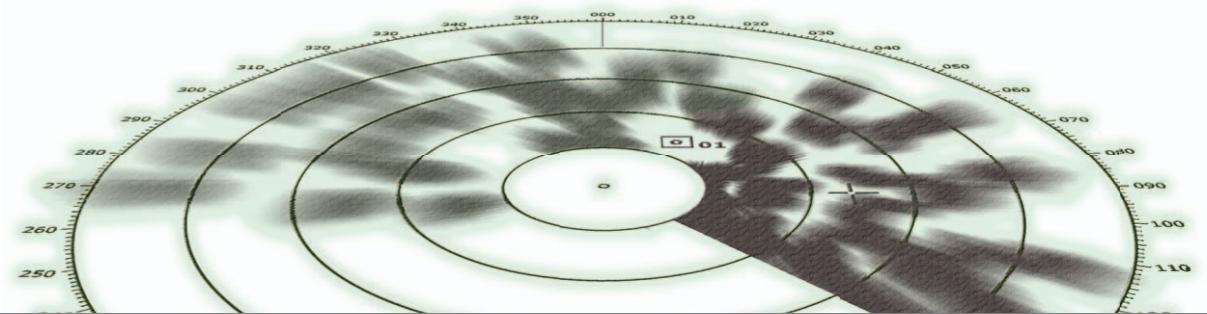

As part of our lifecycle management we place a huge amount of emphasis on support and have built up a strong network to ensure that we can act fast when you most need us. We provide depot-level repair at all of our global service partner locations.

We use an automated customer service application to facilitate returns. Access to stock spare parts locally and the provision of training completes the basis of our commitment to extending the lifecycle of all Hatteland Display products, making sure that your critical systems are always operational.

For up-to-date service partner locations and specific contact information, please visit our dedicated link:  
[www.hatteland-display.com/service](http://www.hatteland-display.com/service)

## AGENTS AND OFFICES

Wherever you, or your vessel, may be in the world, you can rest assure that you can always reach Hatteland Display's many offices and agents located near you and in your timezone to ensure the best possible support.

For up-to-date locations and specific contact information, please visit our dedicated link:  
[www.hatteland-display.com/locations](http://www.hatteland-display.com/locations)

## PRODUCT SIZE COMPARISON

### SERIES 1 - Displays and Panel Computers

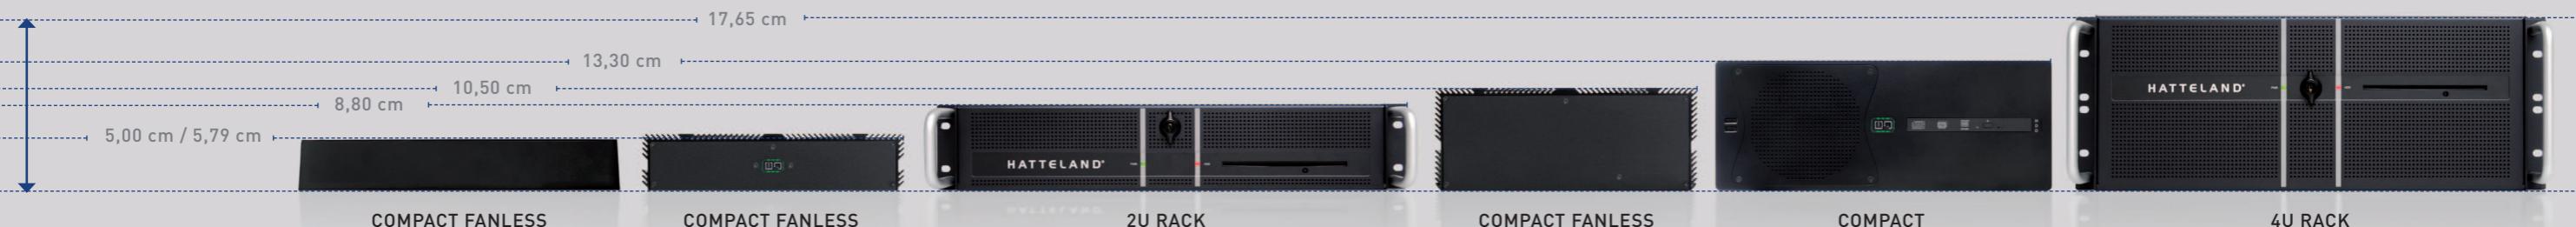

### SERIES X - Displays and Panel Computers

### MIL Qualified Displays

### Rack, Compact and Compact Fanless Computers

## DISPLAYS SERIES 1

With our dedication to innovation, we took our de facto industry standard Series 1 displays and set about improving them. The result is the Series 1 redesign, a new generation of innovative, rugged marine displays designed for any navigation and automation application, including ECDIS.

Although the new Series 1 offers a clear improvement on performance, functionality and value, we have ensured that it adheres to the Hatteland Display ethos of Form, Fit, Function, so you can harness the many innovative features, without making changes to your existing solutions.

Series 1 displays feature 0-100% dimming, and provide unmatched sun and night vision. All sizes can benefit from Hatteland Display's sophisticated Optical Bonding, which eliminates condensation and dust, and reduces reflection by over 90%. Together with advanced anti-reflective coatings, bonding enables you to see your display in bright sunlight without the need for extensive backlighting, which can cause overheating and a shorter product life cycle.

- TYPE APPROVED
- ECDIS COMPLIANT
- SUPERIOR BONDING TECHNOLOGY
- FORM, FIT AND FUNCTION - LONG-TERM COMMITMENT

Series 1 introduces a number of signal input/output options, which can be increased by using the HATTELAND® Multifunction Cable. Further customized cables are available to ensure that you can interface everything you need to with the greatest of ease.

All Series 1 models are built to last and designed to be reliable in harsh environments, while providing the performance and flexibility you expect. They are perfectly suited to use aboard a wide range of vessels including commercial ships, workboats, coast guard boats and navy ships.

NEW

## DISPLAYS SERIES X

As a leading manufacturer of display and computer hardware for the maritime segment, Hatteland Display continuously gauges and responds to market needs. Our commitment to develop specialized products for a multitude of onboard ship systems continues, and with that the introduction now of a brand new product range called, Series X.

With cast aluminium, compact (IP22) and sleek by design chassis, the units from this new range can be desk mount or console integrated. The design is modular, allowing for common modules to be used in various models and combinations. Together these design features bring about a range perfectly in sync to market cost expectations – along with that, the performance and type approval always expected in all Hatteland Display products.

All sizes are available in display or panel computer formats, as well as various performance specifications to choose from. There are standard base models available which are listed in the following pages.

The modules used in Series X, are all qualified having undergone and passed our extensive test program, which includes HALT testing. This means that the products are tested well outside the requirements in EN60945 and E10.

The result is a more reliable product.

- IP22 / IP66
- MULTITOUCH
- TYPE APPROVED
- ECDIS COMPLIANT
- SUPERIOR BONDING TECHNOLOGY
- MODULE BASED, TAILOR-MADE SYSTEMS MADE EASY!
- FORM, FIT AND FUNCTION - LONG-TERM COMMITMENT
- SUNLIGHT READABLE / HIGH BRIGHT VERSIONS AVAILABLE
- GLASS DISPLAY CONTROL™ (GDC), SOLID STATE MENU SYSTEM

**HATTELAND®**  
GLASS DISPLAY CONTROL™

# PANEL COMPUTERS SERIES 1

All Series 1 panel computers are based around the high quality, rugged Series 1 displays. With a panel computer though, the displays come with a built-in computer, instantly transforming them into navigation and automation power-houses, ideal for a whole range of different systems and solutions.

Of course, with Series 1 panel computers you immediately get the benefits from the Series 1 displays, such as unmatched viewing clarity and long life, but with the additional flexibility of a computer. They follow the same form and fit as Series 1 displays too, making them an ideal match for common system design requirements or as a replacement computer.

The computer itself is specified to ensure that it is capable of running all marine applications, from ECDIS software through to engine monitoring and automation applications.

- TYPE APPROVED
- COST EFFECTIVE
- ECDIS COMPLIANT
- SUPERIOR BONDING TECHNOLOGY
- FORM, FIT AND FUNCTION - LONG-TERM COMMITMENT

A computer and display,  
all in one...

It has power to spare too, so software developers can be sure that Hatteland Display Series 1 panel computers can handle the latest applications being designed for bridge and engine room systems in addition to other, more custom uses.

Series 1 panel computers offer the ultimate in convenience for systems integrators and boat builders. This is backed up by the inherent qualities of Series 1 displays and the flexibility of the powerful integrated computer. Series 1 panel computers are a single flexible solution, designed only for the marine environment and built to last.

## PANEL COMPUTERS SERIES X

The Series X MMC range of products has been developed alongside the display versions, thus expanding the impressive footprint and impact of this Series X on the maritime market.

The considerable advances made by Hatteland Display over recent years in PC platform development is now enhancing further the panel PC offering. All Series X display sizes are available with state of the art PC technology integrated, designed and built for type approved maritime systems.

- IP22 / IP66
- MULTITOUCH
- TYPE APPROVED
- ECDIS COMPLIANT
- SUPERIOR BONDING TECHNOLOGY
- MODULE BASED, TAILOR-MADE SYSTEMS MADE EASY!
- FORM, FIT AND FUNCTION - LONG-TERM COMMITMENT
- SUNLIGHT READABLE / HIGH BRIGHT VERSIONS AVAILABLE
- GLASS DISPLAY CONTROL™ (GDC), SOLID STATE MENU SYSTEM

# COMPUTERS

Hatteland Display's range of type-approved marine computers is designed to perform in harsh environments while providing the performance and flexibility you expect.

We offer rack mount and black box / standalone computer solutions for every need. Our computers are used by system integrators, boat builders and end-users and can be found on all vessel types, all over the world.

If you are looking for a high quality marine computer for navigation, monitoring or entertainment solutions, Hatteland Display can fulfil your high expectations at a reasonable cost.

Our computer range covers all eventualities and requirements. We offer a wide range of processor choices, HDD and power options, and solid state technology, neatly engineered within industry standard form factors such as 19 inch rack mount, 2U, 3U and 4U.

We continually develop our marine computers portfolio to make the best use of emerging computer technology so you can be sure that your Hatteland Display computer offers the power needed to run modern applications\*, with the flexibility to be installed wherever you want, for any marine use.

## \*Typical factory installed Operating Systems delivered with Hatteland Display Panel Computers and Computers:

- Microsoft® Windows® Embedded Enterprise (Win XP Pro Eng w/SP2c, 32bit)
- Microsoft® Windows® Embedded Enterprise (Win Server 2003 Eng, 32bit)
- Microsoft® Windows® Embedded Enterprise (Win 7 Pro Eng, 32bit)
- Microsoft® Windows® Embedded Enterprise (Win Server 2008 Eng, 32bit)

## MIL QUALIFIED PRODUCTS

Displays and computers are the critical link between the combat operator and today's mission-critical systems. As the leading international supplier of rugged marine displays, computers and panel computers, Hatteland Display understands the importance of product quality, reliability and performance. With over twenty years experience, Hatteland Display has established sophisticated design techniques, meticulous manufacturing processes, stringent testing programs and world-class quality control systems that reduce risk and total cost of ownership for our customers.

Whether your need is for COTS or custom product solutions, Hatteland Display is dedicated to becoming a dependable link in your supply chain and logistics support network.

## RAISING THE STANDARDS

Hatteland Display naval products are tested according to MIL-STD-461E, MIL-STD-810F, MIL-STD-167-1 and MIL-S-901D, Grade A, Class 1, in addition to extended IEC 60945. We have Type Approval from all major marine classification societies, ensuring our marine displays, computers and panel computers are fit for the harsh environments encountered on missions at sea.

**MIL-STD-461E**

**MIL-STD-810F**

**MIL-STD-167-1**

**MIL-S-901D, Grade A, Class 1**

**Extended IEC 60945**

**TEMPEST SDIP-27**

TEMPEST certified  
by the Norwegian  
National Security  
Authority

## COTS OR CUSTOM SOLUTIONS

Hatteland Display has a proven track record of providing dependable solutions to systems integrators and Navies around the world, which is a reflection of our product quality, value and the trust which our customers put into our solutions.

In addition to our extensive portfolio of standard (COTS) products, Hatteland Display delivers custom and badged product solutions to some of the largest and best-known system providers in the industry. Our ability to provide tailored solutions and support high-volume production runs has led to lasting relationships with our customers.

Product innovation and flexible manufacturing are key to Hatteland Display's leadership strategy. We have made substantial investments in state-of-the-art design tools, environmental test equipment, manufacturing and quality systems and are recognized for providing the highest quality and best value in the Naval and Defense market.

NAVAL

## PAST PERFORMANCE - NAVIES

Our products are in applications for navigation, automation and C4i on a wide range of military vessel types, including Aircraft Carriers, Destroyers, Frigates, Mine Hunters, Patrol Boats and Submarines.

### **Navies, among others, currently supplied by Hatteland Display**

Belgian, Canadian, Chilean, Danish, Dutch, French, German, Greek, Indian, Italian, Japanese MSDF, Korean, Malaysian, Mexican, Norwegian, Polish, Royal Australian, Royal Navy (UK), Royal Navy of Oman, Singapore, South African, Spanish, Swedish, Turkish, UAE and US.

With this much experience you can be sure that Hatteland Display is a strong link in the naval supply chain.

### **Coastguards, among others, currently supplied by Hatteland Display**

Germany, Japan, Jamaica, Netherlands, Norway and US.

### **Reference programs, among others, currently supplied by Hatteland Display**

FREMM, BAM, Barracuda, MIL-GEM, SOGIM, AWD, LCS, DEEPWATER, LHD/LHA, DDG/CG and LSD/LPD.

**Meeting the Demand.  
Qualified for shock,  
vibration and EMI...**

## SPECIFICATIONS - MIL QUALIFIED DISPLAYS

# ACCESSORIES

High quality build accessories suitable for our wide range of Display, Panel Computer and Computer products across all markets. Suitable for Maritime Multi Display (MMD), Maritime Multi Computer (MMC), MIL Qualified (MIL) products and Computers (where applicable).

## Mounting Brackets

Desktop, ceiling, console, wall, rack or cabinet mounting brackets and mounting plates.

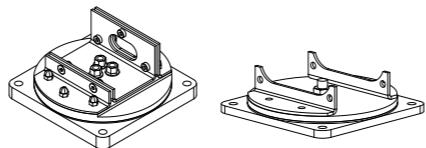

TYPENUMBER	DESCRIPTION	SUITABLE FOR
JH MMDBR STD-A1	Desktop/Ceiling Bracket for Displays and Panel Computers	19, 20 inch
JH 15TBR STD-B1	Desktop/Ceiling Bracket for Displays and Panel Computers	15 inch
JH 19TBR STD-B1	Desktop/Ceiling Bracket for Displays	19 inch Slim
JH 19BRD STD-B1	Desktop/Ceiling Bracket for Displays. EN60945 Tested	19 inch Slim
JH 19BRD STD-A1	Desktop/Ceiling Bracket for Displays and Panel Computers. EN60945 Tested	19 inch
JH 22TBR STD-A1	Desktop/Ceiling Bracket for Displays.	22 inch
JH 22BRD STD-A1	Desktop/Ceiling Bracket for Displays. EN60945 Tested	22 inch
JH 23TBR T01-A1	Desktop/Ceiling Bracket for Displays	23 inch
JH 23BRD STD-A1	Desktop/Ceiling Bracket for Displays. EN60945 Tested	23 inch
JH 26TBR STD-A1	Desktop/Ceiling Bracket for Displays	26 inch
JH 26BRD STD-A1	Desktop/Ceiling Bracket for Displays. EN60945 Tested	26 inch
JH 27BRD STD-A1	Desktop/Ceiling Bracket for Displays. EN60945 Tested	27 inch
HT 00226 OPT-A1	Desktop/Wall/Ceiling/Cabinet for Computers	HT C01, HM C01
HT 00228 OPT-A1	Desktop/Wall/Ceiling/Cabinet for Computers. With Cable Reliefs.	HT B17, HT B18
HT 00244 OPT-A1	Desktop/Wall/Ceiling/Cabinet for Computers.	HT B17, HT B18
HT 00245 OPT-A1	Bracket Kit Desktop/Wall/Ceiling/Cabinet for Computers	HT B17
HT 00246 OPT-A1	Bracket Kit Desktop/Wall/Ceiling/Cabinet for Computers	HT B18

## Rotary Brackets

For use with Mounting Brackets.

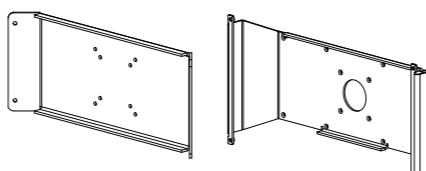

TYPENUMBER	DESCRIPTION	SUITABLE FOR
JH 15TRO STD-A1	For Displays and Panel Computers	15 inch
JH MMDRO STD-A1	For Displays and Panel Computers	19, 20, 23 inch

## VESA Brackets

For Wall or Ceiling mounting, compatible with VESA 75/100mm standards.

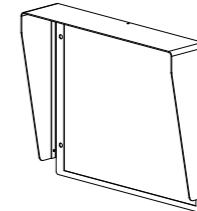

TYPENUMBER	DESCRIPTION	SUITABLE FOR
JH VESA 15T03-A1	For Displays and Panel Computers	15 inch
JH 19VED STD-A1	For Displays and Panel Computers	19 inch
JH 19VED-STD-B1	For Displays	19 inch Slim
JH VESA 20T06-A1	For Displays	20 inch
JH 22VED STD-A1	For Displays	22 inch
JH VESA 23T01-A1	For Displays	23 inch
JH 26VED STD-A1	For Displays	26 inch
JH 27VED STD-B1	For Displays	27 inch

## Sun Visors

For preventing glare and reflections from strong light sources.

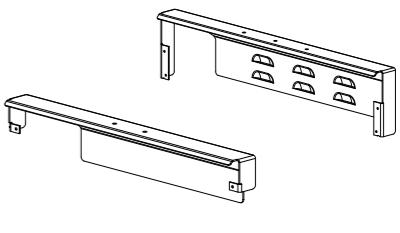

TYPENUMBER	DESCRIPTION	SUITABLE FOR
JH 15TSV STD-A1	For Displays and Panel Computers	15 inch
JH 19TSV STD-A1	For Displays and Panel Computers	19 inch
JH 19TSV STD-B1	For Displays	19 inch Slim
JH 20TSV STD-B1	For Displays	20 inch
JH 22TSV STD-A1	For Displays	22 inch
JH 23TSV STD-A1	For Displays	23 inch
JH 26TSV STD-A1	For Displays	26 inch

## Water Covers

For top of product. IP22 Rated.

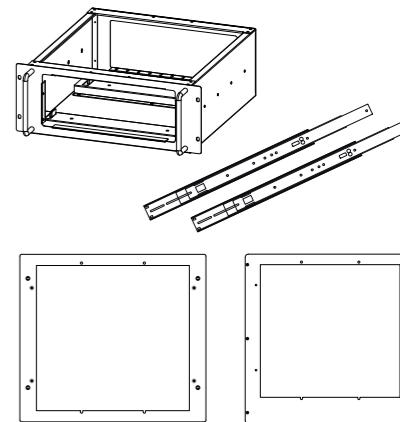

TYPENUMBER	DESCRIPTION	SUITABLE FOR
JH 15TWC STD-A1	For Displays and Panel Computers	15 inch
JH 19TWC STD-B1	For Displays and Panel Computers	19 inch
JH 19TWC STD-C1	For Displays	19 inch Slim
JH 20TWC STD-B1	For Displays	20 inch
JH 22TWC STD-A1	For Displays	22 inch
JH 23TWC STD-A1	For Displays	23 inch
JH 26TWC STD-A1	For Displays	26 inch
JH 27TWC STD-A1	For Displays	27 inch

## Cutout, Frame and Chassis Adapters

19 Inch Rack adapters, Hatteland Display compatible Panel Cut Out adapters, Computer Chassis Rack Adapter, Sliding Rails and CRT adapters suitable for retrofit installations.

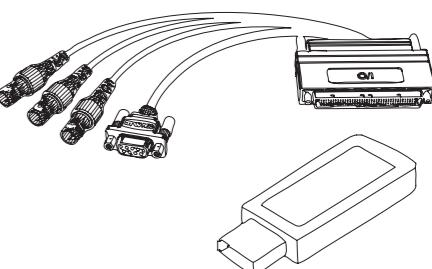

TYPENUMBER	DESCRIPTION	SUITABLE FOR
HT 00223 OPT-A1	Adapt unit to 19 inch Rack 4U size.	HT C01, HM C01
HT 00224 OPT-A1	2 x 20 inch long ball bearing sliding rails for 19 inch Rack	HT C01, HM C01
HT 00225 OPT-A1	2 x 26 inch long ball bearing sliding rails for 19 inch Rack	HT C01, HM C01
HT 00250 OPT-A1	2 x 20 inch long ball bearing sliding rails for 19 inch Rack	HT 216, HT 416
JH 15TAP STD-A1	Frame Adapter, 19 Inch Rack. For Displays and Panel Computers	15 inch
JH 15TAP STD-B1	Frame Adapter, 17 Inch CRT Cut Out Area. or Displays and Panel Computers	15 inch
JH 17TAP STD-A1	Frame Adapter, 19 Inch Rack. For Displays and Panel Computers	19 inch Slim
JH 19TAP STD-A1	Frame Adapter, 21 Inch CRT Cut Out Area. For Displays and Panel Computers	19 inch
JH 19TAP STD-B1	Frame Adapter, 21 Inch CRT Cut Out Area (custom size). For Displays and Panel Computers	19 inch

## Cables and Miscellaneous

These accessories adds even more value to our wide range of display, panel computer and computer products.

TYPENUMBER	DESCRIPTION	SUITABLE FOR
